DAYTONA'S FIRE STATION. KILOMETER RECORD BROKEN

Is Too Small to Hold The Apparatus
Kept There. Lights Badly
Needed.

A visit to the fire department headquarters by any one, whether a novice or an expert, would reveal a deplorable condition of affairs existing in the management of that department, due to inadequate room and facilities.

In the first place, the hall is too small, about 25x36 feet, to serve the purpose for which it is used. In this small space are crowded the street sprinkler, a road scraper, two chemical engines, a fire engine, hose wagon, a wide trough for drying hose, and often wheelbarrows or other effects, the property of the city.

The entrance to this commodious (?) fire hall is scarcely wider than the vehicles kept in it, making it difficult to get the apparatus out in a hurry in case of fire. Then, too, there is no light of any kind in the building, even the entrance way being in the shadow thrown by the City Hall at night.

The fire department also has no means of sounding an alarm in case of fire. If a fire occurs notice is supposed to be given to the ice factory and they blow their whistle a certain number of times indicating the location of the fire. In case the factory should for any cause shut down a few days some other means of warning members of the department would have to be adopted.

The city is badly in need of a separate building and one better adapted for this purpose. It should be furnished with a bell, or some other apparatus, for sounding an alarm, electric lighted and of sufficient size to conveniently house fire apparatus.

The apparatus is sorry looking bunch of junk. The fire engine has been in use several times the past few days sprinkling the streets and many eyewitnesses will bear testimony that it worked poorly, in fact sometimes not at all, not because those handling it do not understand the workings of these engines be- good fortune.

(Continued on Third Page)

cause some of them are experts.

Such a condition is a menace to life and property and should receive the careful attention of all the citizens as well as of the officials. The city has been exempt so far from a disastrous conflagration, but there is no assurance of a continuance of this

An Old Favorite

FROM "EVANGELINE"

By Longfellow

THE extract given below is the prelude to Longfellow's long and well known work "Evangeline." In "Evangeline" the poet tells of the election of the French settlers of Acadie (Nova Scotia) by the English and their dispersion. The poet supposes that his heroine, Evangeline, being separated from her betrothed, Gabriel, searches for him in vain, while he likewise searching for her. They meet at last in a hospital in Philadelphia, where he is a patient and she a Sister of Mercy. Shortly after their meeting he dies.

HIS is the forest primeval;
The murmuring pines and the hemlocks,
Bearded with moss, and in garments green,
Indistinct in the twilight,
Stand like Druids of old, with voices sad and prophetic,
Stand like harpers loar, with beards

That rest on their bosoms.

Loud from its rocky caverns,

The deep-voiced neighboring ocean

Speaks, and in accents disconsolate

Answers the wail of the forest.

This is the forest primeval;

But where are the hearts that beneath it

Leaped like the roe, when he hears in the woodland

The voice of the huntsman?

Where is the thatch-roofed village,

The home of Acaadian farmers,—

Men whose lives glided on like rivers

That water the woodlands.

Darkened by shadows of earth,

But reflecting an image of heaven?

Waste are those pleasant farms,

And the farmers forever departed!

Scattered like dust and leaves,

When the mighty blasts of October

Seize them, and whirl them aloft,

And sprinkle them far o'er the ocean,

Naught but tradition remains

Of the beautiful village of Grand-Pre.

Ye who believe in affection that hopes,

And endures, and is patient,

Ye who believe in the beauty

And strength of woman's devotion,

List to the mournful tradition

Still sung by the pines of the forest;

List to a Tale of Love in Acadie,

Home of the happy.

ORMOND ASSOCIATION BARRED. COLORED BURGLAR SKIPPED.

Automobile Organization Gives Sanc-
tion for Next Year's Meet to

Entered a Cottage in The Rear of The
Ridgewood And Steals a Quantity
of Clothing.

In the fight to obtain the automobile speed competition for the Daytona-Ormond beach, radical action was taken Tuesday by the American Automobile Association that effectively bars the Ormond Racing Association from promoting a meet next year except as an outlaw body. Sanction was granted the Florida East Coast Automobile Association for the holding of races at any time between January 25 and March 1, 1906.

The Ormond Association will not be recognized by the A. A. A., and in return for this favor, the Florida East Coast Association undertakes to have completed in time for next year's meet a hotel on the beach at Daytona to cost \$200,000. As an evidence of earnestness in the fight, residents of Daytona, within two days, have subscribed \$125,000 of this amount.

The East Coast Association will erect on the beach a large garage, with sleeping and club quarters for chauffeurs and mechanics. No charge for use of this will be made to owners of competing cars.

At a meeting held by racing car owners it was decided unanimously to stand loyally by both the Florida association and the A. A. A.

Harlan W. Whipple, the retiring president of the A. A. A., left for north Tuesday with Mrs. Whipple. He has been on the verge of nervous prostration and upon his physician's orders he has resigned also as a governor of the Automobile Club of America and from six other clubs in New York and Boston. He plans to sail for Europe soon for a long tour.

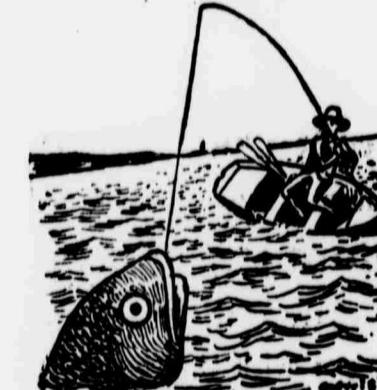

W. C. Temple, who resigned his A. A. A. office at the same time with Mr. Whipple, has positively declined to accept either the presidency or to return to the racing board chairmanship. He declares that the duties of both are too arduous for a man in search of rest.

Judge Hotchkiss, of Buffalo, is the latest favorite for the presidency, while William Wallace is still first choice for the racing board chair-

manship. It is said that with Mr. Wallace at the head, William K. Vanderbilt, Jr., will withdraw his resignation as a member. If Mr. Wallace fails to accept, the choice will lay among H. L. Bowden, E. R. Thomas, James L. Breeze, S. B. Stevens and A. R. Pardington.

George H. Day, manager of the Association of Licensed Automobile Manufacturers, denied that his organization is about to enter the sport and contend for race control. His presence in face of the situation, however, has revived the stories of affiliation between the licensed association and a new racing organiza-

The circulation of the DAILY NEWS is
steadily increasing and on Monday passed the
500 mark by a clear majority of 100. Monday's
edition of the paper was exhausted fifteen minutes
after the last form was off the press. 600
for a daily in the city the size of Daytona is a very
creditable showing and is evidence that the
public appreciate our efforts. It shall be our aim to
build the circulation to a still higher figure and to
accomplish this will make it better and better
each day.

Daytona Daily News

PUBLISHED DAILY EXCEPT SUNDAY.

ISSUED FROM JANUARY 1 TO APRIL 1, AT DAYTONA, FLORIDA, BY

GEO. F. CHUCKE, EDITOR AND PROPRIETOR.

Subscriptions—by mail \$1.20 for the season. By carrier 25 cents a week
Entered as second-class matter January 1, 1907, at the post office at Daytona,
Florida, under Act of Congress of March 3, 1907.

This fellow "Aunt" Try It

In connection with the opening of the
depot of the Newark for Florida

of two automobile enthusiasts, one of
the reporters of the Newark Sun-
day News has the following:

"Messrs. Demman and Wurth will
take a tour of the St. John's River
section, south of Jacksonville, where
the roads are in excellent
condition for automobile driving. Since
the fight for good roads was started
in Florida a few years ago, thousands
of dollars have been spent in
each county of the State, and as a
result an automobile can travel from
one section to another with little
difficulty."

Announcement of Candidacy.

I hereby offer myself as a candidate
for Mayor and if elected will
pursue the same lines of administration
as in the past two years.

Respectfully,
C. L. Saurin

The congregation of the First M.
E. Church tomorrow morning is to
be congratulated upon the prospect
of hearing Mr. and Mrs. J. M. Harris sing.
They are both evangelists, have traveled extensively and have
held meetings in many of the lead-
ing cities of this country, being suc-
cessful wherever they have gone.
Their home is in Evanston, Ill., but they are here seeking rest. For Mrs.
Harris, whose earnest and taxing lab-
ors in the work has been pro-
longed.

A news reporter was informed by
a reliable party that there is much
truth in the articles going the rounds
of the papers in regard to a new
hotel for Daytona.

Note the temperature table in an-
other column. Extreme cold pre-
vails all over the country and in
many sections reports come of people
who have been frozen to death.

Eli Perkins, whose stage name is
McEviley D. Fuller, will visit his
nephew, W. H. Davis, on Magnolia
avenue next Tuesday.

The Pickett family will be here
February 9, 10 and 11.

Perkins in the public schools will
be granted a special rate of 35 cents
for the Eli Perkins' great lecture at
the Baptist church next Tuesday night.

Eli Perkins, the greatest humorist
on the American platform, will
lecture at the Baptist church on
Palmetto avenue next Thursday night.
Don't fail to hear him.

Ash Wednesday falls on March 8,
and Easter Sunday on April 23, this
year.

For Rent. 6 houses, two
Ridgewood on Orange avenue. Electric
lights, fire place, bath and all modern
improvements. Reasonable. Enquiry of R. J. Malby,
manager Bond Lumber Co.

The circulation of the DAILY NEWS is steadily increasing and on Monday passed the 500 mark by a clear majority of 100. Monday's edition of the paper was exhausted fifteen minutes after the last form was off the press. 600 for a daily in a city the size of Daytona is a very creditable showing and is evidence that the public appreciate our efforts. It shall be our aim to build the circulation to a still higher figure and to accomplish this will make it better and better each day.

Daytona Daily News

Published Daily Except Sunday.

Issued from January 1, to April 1, at Daytona, Florida, by

GEO. F. CROUCH, EDITOR AND PROPRIETOR.

Subscription—(by mail) \$1.00 for the season. By Carrier 15 cents a week.

(Entered as second-class matter January 3, 1895, at the postoffice at Daytona, Florida, under Act of Congress of March 3, 1893.)

This Fellow "Auto" Try It

In connection with the story of the departure from Newark for Florida of two automobile enthusiasts, one of the reporters of the Newark Sunday News has the following.

"Messrs. Denman and Wurth will take a tour of the St. John's River section, south of Jacksonville, where the roads are in excellent condition for automobiling. Since the fight for good roads was started in Florida a few years ago, thousands of dollars have been spent in each county of the State, and as a result an automobile can travel from one section to another with little difficulty.

Announcement of Candidacy.

I hereby offer myself as a candidate for Mayor and if elected will pursue the same lines of administration as in the past two years.

Respectfully,
C. L. SMITH.

The congregation of the First M. E. Church tomorrow morning is to be congratulated upon the prospect of hearing Mr. and Mrs. J. M. Harris sing. They are both evangelists, have traveled extensively and have held meetings in many of the leading cities of this country, being successful wherever they have gone. Their home is in Evanston, Ill., but they are here seeking rest for Mrs. Harris, whose earnest and taxing labor in the work has been too prolonged.

A News reporter was informed by a reliable party that there is much truth in the articles going the rounds of the papers in regard to a new hotel for Daytona.

Note the temperature table in another column. Extreme cold prevails all over the country and in many sections reports come of people who have been frozen to death.

Eli Perkins, whose stage name is Melville D. Fuller, will visit his nephew, W. H. Davis, on Magnolia avenue, next Tuesday.

The Pickert family will be here February 9, 10 and 11.

Pupils in the public schools will be granted a special rate of 35 cents for the Eli Perkins' great lecture at the Baptist church next Tuesday night.

Eli Perkins, the greatest humorist on the American platform, will lecture at the Baptist church on Palmetto avenue next Tuesday night. Don't fail to hear him.

Ash Wednesday falls on March 8, and Easter Sunday on April 23, this year.

A Trusted Fisherman.

The Daily News reader heard a fish story the other day that would make the snakes of Izaak Walton blanch.

A man arrived in the city was walking over the south bridge when he met a local fisherman with whom he stopped to chat.

"What kind of fishing do you have in this vicinity?" asked the stranger. "None better anywhere," was the reply.

"What kind of fish do you have here?" asked the stranger.

"Oh, just all kinds."

"I hope there are some game fish to be had," continued the stranger.

"Tell me, what was the weight of the largest fish ever caught hereabouts?"

"Well sir, responded the fisherman, "we don't never take no widgeon machine with us when we fish, so I wouldn't know to say, however, that I just had a catch that beat them all, I don't mind saying." But stranger, I don't mind telling you that when I pulled the fish out of the water the river went down a foot.

St. Plunkard

A large audience gathered at St. Plunkard's production of "The Wizard of Oz" at the Opera House, last night, in spite of the threatening weather, and the large amount of stage settings brought by this company, but they were able to get on enough to make the first, third and fourth scenes decidedly realistic.

The acting throughout was good, while the specialties, though not new to patrons of the Opera House, were better than the average. A second night here would undoubtedly have attracted a larger audience.

Good Order Prevailed

Deputy Sheriff Smith called the attention of a DAILY NEWS reporter yesterday to the good order prevailing during the races at which time the city had more people here than ever before in its history. He also spoke of the many games and races, including babies and kick drives, in quietly submitting to the rating of County Commissioners that all babies should be kept off the beach during the races.

Other officers were seen by the DAILY NEWS reporter and all had the same story to tell. Of course there were a few unruly persons here as a result of public excitement, but the police, as usual, were on the lookout for trouble.

After racing, the girls and boys, for "wise guys" endeavored to find their way through the gate and once cracked head or set a tail, but no

rests were made.

The Faults of Men and Those of Women

By Mrs. FRANK LESLIE

THE barrooms are full of men the churches are full of women," said a shrewd observer in one of the daily prints lately. His statement was a broad one, but after all conveys a truth of which women may perhaps be too proud.

Women don't frequent barrooms and similar resorts, to be sure, but then one must remember THEY DON'T WANT TO. They do go to church a good deal, but they take pleasure in doing it. Virtue and vice are, after all, COMPARE-TIVE terms, and the temperament of the individual comes in to modify most decisions.

On one of the occasions when I helped to swell the congregation of women at church I heard what seemed to me a most sensible and rational theory propounded by the preacher. He was talking of the just judgment, and he said that the Judge was not going, like a mighty magistrate, to apply an iron law TO EVERY CASE ALIKE, but to consider each culprit's temperament, opportunity and environment.

Men, for instance, would not be so severely judged FOR FREQUENTING BARROOMS AS WOMEN WOULD, and A FURTHER SUSPICION, "NAGGING" WOMAN WOULD NOT BE PUNISHED FOR HER FLIGHTS OF TEMPER AS A MAN WOULD BE FOR SIMILAR CONDUCT.

Each sex has its own class of faults, and doubtless the temptation to those faults is far stronger in the class which has a sort of hereditary right to them than in any other. They differ essentially, these faults of men and women do, and very often they clash all the more ON ACCOUNT OF THESE DIFFERENCES. Man's wrong tendencies run into vice more or less coarse and degrading, while woman's tend to refine and faults more or less narrow and contemptible.

The woman has her foibles of temper, of selfishness, of jealousy, of vanity, of precision and intolerance. These qualities are not vicious, unless we call jealousy one, but they are capable of making life INTOLERABLE to any one compelled to associate intimately with the man who possesses and develops them.

A man under certain conditions of excitement and provocation is apt to become coarse and brutal. He may be long the furniture about, he tells his wife she is a fool, or a liar, or a scold, and taunts her with earn insults. He visibly to his eyes if not to his own, steps down from his position AS MAN AND GENTLEMAN and becomes an object of scorn and loathing.

Now come in her foibles to fan the flame his viene have kindled. She uses her nimble tongue like a lash, she mimics him, she "looks" at him, she wishes she had his picture; in fact, she arranges all that is worst in his nature to a condition of frenzy, and AFTER THAT POINT ANYTHING IS POSSIBLE. He may strike her, he may leap upon her insults so terrible that no patience can ever wash them away, he may even be so wrought upon by rage and that sense of helplessness which assails a man when a clever woman lets loose her tongue upon him as to lay out his brute strength upon her and lay her dead at his feet.

TWO MEN OR TWO WOMEN RARELY, IF EVER, STIR EACH OTHER TO SUCH A PITCH OF IRRESPONSIBLE WRATH AS AN ANGRY WOMAN CAN DRIVE AN ANGRY MAN.

Man Will Some Day Recognize Woman as His Peer

By SUSAN E. ANTHONY

THE woman has obtained "that right protective of all other rights, the ballot," agitation must go on, absorbing the time and the energy of OUR BEST AND STRONGEST WOMEN. Who can measure the advantages of those women could be devoted to the needs of government, home, instead of being consumed in the struggle to obtain their birthright of individual freedom? Until this is gained we can never know, we cannot even prophecy, the capacity and power of woman for the uplifting of humanity. It may be delayed longer than we think, it may be here sooner than we expect, but the day will come when MAN WILL RECOGNIZE WOMAN AS HIS PEER not only at the fireside, but in the councils of the nation. Then, and not until then, will there be the perfect comradeship, the ideal fellowship of the sexes that shall result in the highest development of the race.

WHAT THIS SHALL BE WE MAY NOT ATTEMPT TO DEFINE, BUT THIS WE KNOW—that ONLY GOOD CAN COME TO THE INDIVIDUAL OR TO THE NATION THROUGH THE RENDERING OF EXACT JUSTICE.

Other officers were seen by the DAILY NEWS reporter and all had the same story to tell. Of course there were a few mild protests, but, as a whole, the public appreciated the danger and quietly submitted. A few "wise guys" endeavored to force their way through the gates and one cracked head resulted, but no other rests were made.

Unique Advertising.

Some of the Japanese tradesmen in the smaller towns of Nippon have a curious way of advertising their business. On their right forearms they tattoo figures—the shoemaker a shoe, the woodcutter an ax, the butcher a cleaver. Underneath these emblems are such inscriptions as, "I do my work modestly and cheaply," or "I am as good at my trade as most of my fellows." When they are hunting work they bare their arms and walk about the streets.

The Faults of Men and Those of Women

By Mrs. FRANK LESLIE

"While the barrooms are full of men the churches are full of women," said a shrewd observer in one of the daily prints lately. His statement was a broad one, but after all conveys a truth of which women may perhaps be too proud.

Women don't frequent barrooms and similar resorts, to be sure, but then one must remember THEY DON'T WANT TO. They do go to church a good deal, but they take pleasure in doing it. Virtue and vice are, after all, COMPAREATIVE terms, and the temperament of the individual comes in to modify most decisions.

On one of the occasions when I helped to swell the congregation of women at church I heard what seemed to me a most sensible and rational theory propounded by the preacher. He was talking of the judgment, and he said that the Judge was not going, like an earthly magistrate, to apply an iron law TO EVERY CASE ALIKE, but to consider each culprit's temperament, opportunities and environment.

MEN, FOR INSTANCE, WOULD NOT BE SO SEVERELY JUDGED FOR FREQUENTING BARROOMS AS WOMEN WOULD, AND A FRETFUL, SUSPICIOUS, "NAGGING" WOMAN WOULD NOT BE PUNISHED FOR HER FLIGHTS OF TEMPER AS A MAN WOULD BE FOR SIMILAR CONDUCT.

Each sex has its own class of faults, and doubtless the temptation to those faults is far stronger in the class which has a sort of hereditary right to them than in any other. They differ essentially, these faults of men and women do, and very often they clash all the more ON ACCOUNT OF THESE DIFFERENCES. Man's wrong tendencies run into vices more or less coarse and degrading, while woman's tend rather to foibles and faults more or less narrow and contemptible.

The woman has her foibles of temper, of selfishness, of jealousy, of vanity, of precision and intolerance. These qualities are not vices, unless we call jealousy one, but they are capable of making life INTOLERABLE to any one compelled to associate intimately with the woman who possesses and develops them.

A man under certain conditions of excitement and provocation is apt to become coarse and brutal. He swears, he bangs the furniture about, he tells his wife she is a fool, or a liar, or a scold, and taunts her with cruel insults. He visibly, to her eyes if not to his own, steps down from his position AS MAN AND GENTLEMAN and becomes an object of scorn and loathing.

Now come in her foibles to fan the flame his vices have kindled. She uses her nimble tongue like a lash, she mimics him, she "looks" at him, she wishes she had his picture; in fact, she arouses all that is worst in his nature to a condition of frenzy, and AFTER THAT POINT ANYTHING IS POSSIBLE. He may strike her, he may heap upon her insults so terrible that no penitence can ever wash them away, he may even be so wrought upon by rage and that sense of helplessness which assails a man when a clever woman lets loose her tongue upon him as to lay out his brute strength upon her and lay her dead at his feet.

TWO MEN OR TWO WOMEN RARELY, IF EVER, STIR EACH OTHER TO SUCH A PITCH OF IRRESPONSIBLE WRATH AS AN ANGRY WOMAN CAN DRIVE AN ANGRY MAN.

Man Will Some Day Recognize Woman as His Peer

By SUSAN B. ANTHONY

UNTIL woman has obtained "that right protective of all other rights, the ballot," agitation must go on, absorbing the time and the energy of OUR BEST AND STRONGEST WOMEN. Who can measure the advantages that would result if the magnificent abilities of these women could be devoted to the needs of government, society, home, instead of being consumed in the struggle to obtain their birthright of individual freedom? Until this be gained we can never know, we cannot even prophesy, the capacity and power of woman for the uplifting of humanity. It may be delayed longer than we think, it may be here sooner than we expect, but the day will come when MAN WILL RECOGNIZE WOMAN AS HIS PEER not only at the fireside, but in the councils of the nation. Then, and not until then, will there be the perfect comradeship, the ideal union, between the sexes that shall result in the highest development of the race.

WHAT THIS SHALL BE WE MAY NOT ATTEMPT TO DEFINE, BUT THIS WE KNOW—that ONLY GOOD CAN COME TO THE INDIVIDUAL OR TO THE NATION THROUGH THE RENDERING OF EXACT JUSTICE.

Daytona is situated upon the west bank of the Halifax River at its furthest extent eastward, between Ormond Beach and the western limit of Mosquito Inlet. It is in latitude 29° twenty seven miles from St. Augustine and one mile from the ocean. The beach is perfectly suited for bathing, being without a rivulet for beauty among the villages of the South. The sea is what is known as "blue water," having a fine, clear, transparent water with a most rapid growth of majestic forest trees, and among these trees is the fruit of today, while tomorrow's fruit is tomorrow's stone. The result is that all along the older sections that intersect the town may hardly live here, but the new sections, built upon these dried with great forests of the gray Spanish moss, that sways and swells and moves, and among these are many new and beautiful houses, leaving magnificence, fragrant bay and cedar berried holly, and many other wild flowers, while in many places the palm trees stand in groups, the amorphous elms and crape myrtles the branched forming shade bower, adding a grace and beauty.

The river flows from the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the fisherman, and has one of the greatest attractions.

The main avenues that can pass with or intersect the beach street, which is about six feet wide, a half-mile of open, beautiful water sloping upon its eastern side, where the sand waves and flow and ebb, are about one-half mile long, containing harbors and giving bays from off the wide Atlantic, which render the resulting climate of the ocean perfect in every way.

Daytona has many miles of well-grad- ed, marsh and shell roads and streets, and is the favorite route with the tourists south.

Whaleback Paradise

had added to them, but a mile away, are thirty miles of smooth, hand banked, flat graded roads, leading to the ocean, which are ideal for automobile racing.

There are no express ways, North or South, numbers a few, where horses and cyclists are a favorite pastime, with the tourists south.

The Beautiful Cottages

that have been erected during the past year, and are to be seen everywhere, are famous for their beauty as far as its beautiful green trees and avenues, and they are adding greatly to the attractiveness.

The large number of attractions to those securing homes in the South, and ranking second only to health, popularity and location of Daytona, is the fact that the population is chiefly composed of cultivated and intelligent people, accustomed to the refinement of home and social life. Added to these are many good business men, public and private schools, stores, hotels, laundry, meat markets, novelty work, an opera house, electric lights, first-class telephone, telegraph, a good telephone system, ice factories, Lily Water Works, and hot and cold baths, etc., and everything else can be procured to make it easy to live a life comfortable. An important feature in the healthfulness of this town is the

Water Supply

which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of 80 to 120 feet, passing through several strata of rock, the hole depth assures purity from all surface contamination. The water is slightly impure, but with magnets and iron and holds magnetite, the shape of gas, which soon passes away.

The Population of Daytona

is about 1,800. Added to this are the many tourists, who come to the beach, and the many day visitors, and peddlers of about 1,000 at Kingston, Blake, Old Seabreeze or Seabreeze, and Silver Beach.

Hunting and fishing gear, etc., performed guides and dogs may be had at reasonable prices.

Steamer "CHEROKEE" starting Jan. 25.

FOR THE TOMOKA RIVER. Monday, Wednesday and Fridays, leaving Conrad's dock opposite bank at 10:00 a.m., middle bridge 9:15, peninsula bridge 8:30 and Ormond at 10. FOR PONCE DE LEON AND NEW Smyrna, leaving 10:00 a.m. and 1:00 p.m. daily, returning 4:00 p.m. and 7:00 p.m. bridges S-40. Conrad's dock 9:00 a.m. For particulars apply to Capt. McLean, in shell boat Conard dock, phone 110, or Heath & Dickinson, phone 6-38.

3 Room House, Best Location, \$250 Season.
5 Room Cottages, Season \$150 up.

3 Room House, Good Location, \$200 Season.
Choice Real Estate for Sale.

REAL ESTATE.

which are properly a part of the town and population.

Daytona Beach

lies one mile east of the town, approached by three good bridges over the river, and is the principal summer resort of St. Augustine. It has many tourists during the summer. It has all the phases of small town life, with a large number of winter resort. The beach is wide, and smooth, so many consider the finest in the world, and the sun is bright and strong, and the water is warm and smooth. People who have tried Northern and Western summer resorts declare that Daytona Beach is perfectly suited for a vacation beach.

Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a record of sixteen years, and is the most important auto race in the world. The Daytona Grand Prix Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break in the road, the natural racing ground for America.

At low tide the beach is broad for a mile, and the racing track, which is about one-half mile long, follows the beach, and is a favorite place for spectators, having a hardy, visible, impact on the smooth and well-packed sand. It is no uncommon sight to see a racing team, the victory in view, driving at full speed before a girl along the smooth beach, thus affording the most exhilarating sport known to man. Between the beach and the ocean, the wind and vehicles drive sand back and forth over the beach, and the marshes which span the splendid Halifax River.

The beach from the sun-shine lights to the lowest point at ebb-tide, measures about one-half mile, and the average width of the surf is approximately two feet. A continuous gentle swell rolls in from the ocean from one to two feet in height, and the combination, making the beach an attractive and perfectly safe place for surfing.

Here the infant as well as the very aged, the invalid as well as the healthy, may safely enjoy the luxury of a swim throughout the larger part of the year, while the strong and expert swimmers, can venture out further to test their strength and skill in battles with the inexorable powers of the mighty ocean.

Whaleback Paradise had added to them, but a mile away, are thirty miles of smooth, hand banked, flat graded roads, leading to the ocean, which are ideal for automobile racing.

There are no express ways, North or South, numbers a few, where horses and cyclists are a favorite pastime, with the tourists south.

The Beautiful Cottages

that have been erected during the past year, and are to be seen everywhere, are famous for their beauty as far as its beautiful green trees and avenues, and they are adding greatly to the attractiveness.

The large number of attractions to those securing homes in the South, and ranking second only to health, popularity and location of Daytona, is the fact that the population is chiefly composed of cultivated and intelligent people, accustomed to the refinement of home and social life. Added to these are many good business men, public and private schools, stores, hotels, laundry, meat markets, novelty work, an opera house, electric lights, first-class telephone, telegraph, a good telephone system, ice factories, Lily Water Works, and hot and cold baths, etc., and everything else can be procured to make it easy to live a life comfortable. An important feature in the healthfulness of this town is the

Hunting and fishing gear, etc., performed guides and dogs may be had at reasonable prices.

110 Miles from Jacksonville.

Fare one way.....\$3.30

Round trip.....6.60

74 Miles from St. Augustine.

Fare one way.....\$2.20

Round trip.....4.40

DAYTONA is situated upon the west bank of the Halifax River at its fairest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29° 47' and longitude 80° 20'. It is about 74 miles south of St. Augustine, 110 miles from Jacksonville, and 20 miles from the ocean.

which are properly a part of the town and population.

Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

AUTOMOBILE RACE MEET.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bared for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sulky-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at eldibit, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

WHEELMAN'S PARADISE

and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivaled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

THE BEAUTIFUL COTTAGES
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

WATER SUPPLY
which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

THE POPULATION OF DAYTONA
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach.

Steamer "CHEROKEE" starting Jan. 25.

FOR THE TOMOKA RIVER, Mondays, Wednesdays and Fridays, leaving Conrad's dock opposite bank at 9:00 a.m., middle bridge 9:15, peninsula bridge 9:30 and Ormond at 10. FOR PONCE PARK and NEW SMYRNA, Tuesday, Thursday and Saturday, leaving peninsula bridge 8:30, middle bridge 8:40, Conrad's dock 9:00 a.m. For particulars apply to Capt. McFadden's shell boat Conrad dock, phone 125, or Heath & Dickinson, phone 6 3R
